# NARESH K

Krishnagiri, Tamil Nadu | nareshk12@outlook.in | +91 76049 08540 | GitHub | LinkedIn

## PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in cybersecurity and web development. Skilled in building Flask-based security tools, malware analysis systems, and responsive web applications. Top 3% ranked on TryHackMe in India, with strong interest in ethical hacking, threat intelligence, and solving real-world problems through hands-on projects.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, Java, C, SQL, HTML, CSS

**Tools & Frameworks:** Flask, Git, GitHub, Linux, Kali Linux, Bash

**Cybersecurity:** Nmap, Wireshark, YARA, Cuckoo Sandbox, OSINT, CTF

## PROJECTS

### Mini Nmap Network Scanner | Python, Flask, Nmap Live

- Built a web-based network scanner replicating core Nmap functionality
- Implemented port scanning with open/closed/filtered states and service detection
- Designed REST APIs and interactive UI for scan execution

### Malware Behaviour & Threat Intelligence Analyzer | Python, Flask Live

- Developed a malware analysis system using YARA and threat intelligence APIs
- Identified behavioral patterns, IOCs, and system activity
- Generated reports to support faster threat analysis

## WORK EXPERIENCE

### Full Stack Development Intern, Aerovant Technologies May 2026 – July 2026

- Developed and deployed a responsive personal portfolio website using HTML5, CSS3, and JavaScript
- Built a dynamic web application with Python and MySQL for backend functionality and database management
- Designed user-friendly interfaces with a focus on responsiveness and usability
- Managed source code and version control using GitHub, following collaborative development practices
- Participated in the complete software development lifecycle, including development, testing, debugging, and deployment

## EDUCATION

### B.E. Computer Science and Engineering 2023 – 2027

Sri Venkateswaraa College of Technology

## ACHIEVEMENTS

- Ranked among the Top 3% on TryHackMe (India)
- Participated in Cybertron National-Level Capture The Flag (CTF)

## CERTIFICATIONS

- Google Cloud Security Operations – Chronicle SOAR Developer Completion Badge
- Networking Basics – Cisco Networking Academy
- Full Stack Development – Infosys Springboard
